

Don't Forget These Things!

Use the questions provided below to help you consider all three implementation drivers as you plan forward.

- *How similar to the research situation is our situation? If our situation is/was not the same, can we still implement the practice with fidelity, possibly with acceptable adjustments?*
- *Can we build the necessary level of commitment/readiness and successfully address resistance?*
- *Can we develop the necessary technical and adaptive skills in leadership?*
- *Can we put the right people in the right place to implement the strategy?*
- *Can we build the capacity, knowledge, and skills of those charged with implementation and provide on-going support for implementation, e.g., coaching?*
- *Can we put the required organizational/structural structures in place and remove barriers?*
- *Can we commit the necessary financial resources, e.g., fiscal, personnel, technology?*
- *Can we commit the necessary processes and mechanisms to monitor fidelity of adult implementation and student impact?*

Things to remember in our situation as we move forward:
